ACS-JC81W

Price Computing Scale

That's how we define
Waterproof!

The image shows a white and red Cauby ACS-JC81W Price Computing Scale. The scale has a white weighing platform on top. The front panel is red and features a digital display with three sections: a top section showing '0.000', a middle section showing '1.00', and a bottom section showing '0.00'. To the right of the display is a numeric keypad with buttons for digits 0-9, a decimal point, and a power button. Below the keypad are several function buttons labeled 'TARE', 'MODE', 'ON/OFF', and 'PRINT'. The brand name 'CAUBY' is printed in white on the red background. The scale is set against a blue background with a large, dynamic splash of water arching over it, and several bubbles are visible around the scale.
